During her posting in Korea before that she co-created a 30-hour on-line teacher training course "Motivating Learning" used by thousands of Korean teachers of English. She loves living here in Italy!

She started a bilingual school with the British Council support firmly believing that, children develop native speaker fluency within the first eight years of their life. She was asked to speak at many conferences on the development of bilingual education and second language early learning. She is working for MLA as a business development manager at the moment and her main task is the improvement of the teacher training branch in the company. Great Teachers create Great Students!
